

furthering the interests of big business over those of the people and labor;

That in the Federation of Labor on March 19 Edward Nockles of the labor body said: "The Sears, Roebuck Co. is now controlling our schools. Julius Rosenwald now dictates what shall be taught to our children. Is organized labor going to stand for this?"

That Nockles called Loeb a liar before the same meeting of the labor body because Loeb testified to certain things against the school teachers before the Baldwin "investigation";

That Jacob Loeb dominates the board of education as president. That "star chamber" meetings of board are called in his office before the regular meeting;

That Loeb was denounced as a betrayer of his own brethren by students of the Hebrew institute when they refused to attend the school any longer. Loeb had issued orders refusing some students the right to use the rooms of the institute to meet because he didn't like what they talked about.

That Loeb is the father of the notorious Loeb rule which gives the school board the right to fire any teachers who continue as members of the Chicago Teachers' Federation. This rule was passed by the board, but the circuit court threatened the trustees with punishment if they enforced it;

That Loeb was accused by the Chicago Federation of Labor of deliberately sidetracking letters sent by the labor body to the board of education, asking for the date of a changed meeting time. He admitted this before an open meeting of the school board.

Judge Landis ruled city may combine attack to have entire voting machine contract annulled with defense of \$300,000 suit of Empire Voting Machine Co. to force payment on 300 machines.

THOMPSON NOT LOOKING FOR FIGHT WITH HOYNE

In his talk to the reporters this morning Mayor Thompson made it very plain that he was not going to open hostilities with State's Att'y Hoyne. He denied that there was any friction between the city hall and the North Side. He said he was willing to co-operate with the state's att'y in the suppression of crime, that he did not give any credence to the report that Hoyne was trying to make Detective Chief Hunt chief of police.

Chief Healey also stated that he wasn't looking for a fight with Hoyne and denied that he had any designs on the men who were working under the prosecutor, who is stirring up a nasty political mess among the Thompson workers of the 21st ward.

This morning Hoyne gave out a list of places which had paid tribute last year to politicians. The feeling about the Criminal Court bldg. is that the city administration cannot afford to antagonize the state's att'y at this time.

SENATE COMMITTEE APPROVE BRANDEIS FOR BENCH

Washington, April 1. — Three to two, senate sub-committee which investigated fitness of Louis D. Brandeis for place on supreme court bench today voted to recommend his confirmation.

Whites names would not be given, it was learned unfavorable votes were cast by Works and Cummins, Republicans, and that vote of Cummins was based on view less adverse to Brandeis than that held by Works.

Brandeis will offer no defense to charges of unfitness for the high post offered before senate sub-committee. His law partner, Edward F. McClennon, made this statement.

Price of coal went up today, all over country. Raised 10 cents a ton in Chicago.

Mrs. Marie Cochran Hartough
